

# Homebound Vaccinations

In Home COVID-19 vaccinations offered to Lancaster County residents **60 years and over** who, because of a chronic or short-term medical condition or physical limitation, are unable to obtain a vaccination at a clinic, doctor's office, hospital or other designated vaccination site.

## Why should you get the COVID-19 vaccine?

The COVID-19 vaccine will protect you from getting COVID-19. The first COVID-19 vaccines used in the United States are made with mRNA, which tells your body how to recognize and fight the virus.

## How do I register?
